- Items
 - Updating the constitution
 - It is actually done, I hope
 - Rules and regulations file

Tyler: made things a little prettier, updated past president and members at large. Some other changes were made as well concerning some rules and dates.

- Rocket league

Shawn: warm up tournament was good. This will become a normal thing for next year. Some people played from home for the warm up tournament but regular season play will have to be played at school. 22 teams. Split into 2 divisions. We might change up the divisions midway through. Streaming probably won't happen on my end by please encourage students to stream to discord etc to raise awareness

- Brian – powerland update?

Brian: Nothing yet

- Lol Team size

Tyler: Would having a 10 people team making scouting impossible

James: Yes, this would make it really hard for scouting and fair play time

Brian: Having too many kids on a team is definitely a thing that should be avoided with fair play time and getting kids organized

- Playing from home? – Tyler

Tyler: Might have to be a little compassionate with Southern Health schools if things end up getting worse.

- AOB (Any other business)

Any swag for champions – mouse pad?
